Play of the joker

If there is a trump suit, the joker counts as the highest trump, as stated above.

In No Trump and Nullo contracts the joker is in a suit by itself and always wins the trick to which it is played.

The joker can only be played to a trick when the holder is void of the suit led, but it is not compulsory.

In these contracts the joker can be led to any trick, and when leading the joker, you nominate a suit which the other players must follow.
